## About Dr. Gregory Lauro's Practice

Dr. Lauro is an Orthopedic and Trauma surgeon, treating many orthopedic conditions but with a special interest in Adult Hip and Knee replacement, revision and reconstruction. This entails procedures designed to reconstruct the arthritic hip and knee, as well as treat hips and knees that have been previously replaced but are failing due to wear, infection, and other conditions. We employ a very personalized approach to your care with responsive administrative support and skilled nursing. Our team approach ensures the shortest possible hospital stay and recovery. Our goal is to quickly return you to the activities that you value most.

### GREGORY LAURO, M.D.

Dr. Lauro is an orthopedic surgeon. He is fellowship trained in reconstructive joint

replacement surgery but also does orthopedic trauma. He is trained and experienced in doing the newest techniques of minimally invasive anterior hip replacement surgery and knee replacement surgery.

Dr. Gregory Lauro provides his patient with comprehensive post-operative rehabilitation protocols based on best clinical outcomes practices and the individual needs of each patient.
